TEAK

Used by Traditional Teak ®

TEAK

Tectona grandis, teakhout, is één van de waardevolste en mooiste houtsoorten ter wereld.
Dankzij zijn verbazingwekkende eigenschappen heeft teakhout een warme robuuste uitstraling en is bovendien duurzaam, weerbestendig en heeft weinig onderhoud nodig. Het edele natuurlijke materiaal verandert van kleur met de seizoenen en past zich, naarmate het ouder wordt, moeiteloos aan aan het uiterlijk van de tuin en de natuurlijke omgeving.

Traditional Teak® betrekt zijn teakhout uit landen waar het hout wordt geoogst uit door de staat gesubsidieerde plantages en volgens de normen op het gebied van verantwoord bosbeheer. Tevens hebben de teakmeubelen van Traditional Teak® het FSC-keurmerk of het SVLK/V-legal certificaat. De latten worden volgens oude traditie met de hand geselecteerd en gesorteerd. Traditional Teak® controleert persoonlijk de kwaliteit tijdens de productie.

Tectona grandis, or the teak tree, provides one of the most valuable and beautiful woods in the world. Thanks to its amazing characteristics, teak is strong, has a natural, warm appearance, is weather resistant, attractive, durable and easy to maintain. The beautiful natural material changes color with the seasons and blends effortlessly with the look of the garden and its natural surroundings as it ages.

Traditional Teak® sources its teak from countries where the wood is harvested from government-supported plantations with an FSC label or SLVK certificate. The slats are selected and sorted by hand in accordance with an ancient tradition. Traditional Teak® personally inspects and controls the quality while manufacturing.

Tectona grandis, der Teakbaum, ist eines der wertvollsten und schönsten Hölzer der Welt. Dank seiner erstaunlichen Eigenschaften ist Teakholz robust, langlebig, witterungsbeständig und braucht wenig bis gar keine Pflege. Das edle Naturmaterial verändert seine Farbe mit den Jahreszeiten und fügt sich mit zunehmendem Alter mühelos in das Erscheinungsbild des Gartens und seiner natürlichen Umgebung ein. Teakholz hat eine natürliche, warme Ausstrahlung, ist witterungsbeständig, attraktiv, langlebig, pflegeleicht und rein.

Traditional Teak® bezieht das Teakholz aus Ländern, in denen Teak aus staatlich geförderten Plantagen und aus unter forstwirtschaftlichen Aspekten genutzten Wäldern gewonnen wird mit dem FSC Gütesiegel oder SLVK Zertifikat .
Nach alter Tradition werden die Latten von Hand erlesen und sortiert. Traditional Teak® kontrolliert die Qualität persönlich während der Produktion.
